Italy

Dear Prof Galderisi,

It is with great pleasure that I write this letter to officially congratulate you on behalf of the Electroencephalography & Clinical Neuroscience Society on the announcement of your being named President-Elect of the European Psychiatric Association.

You are more than deserving of this prestigious milestone. Being elected to lead the European Psychiatric Association reflects your tireless efforts to improve the care and treatment of psychiatric patients, and to promote the best clinical practices based on rigorous science and evidence-based medicine.

Your work with the ECNS has been crucial in this endeavor, and we thank you for your commitment to us and to implementing care based on empirical neuropsychiatric science on a world-wide stage.

All your colleagues in the ECNS congratulate you on this accomplishment, and wish you much success in leading the European Psychiatric Association.

Sincerely,

Dean F Salisbury, PhD
President, Electroencephalography & Clinical Neuroscience Society
